

Organ Supply Industries, Inc. is North America's largest and most complete wholesale manufacturer and supplier of pipe organ related parts and materials.

We are seeking candidates for multiple positions in our Shop.

Pipe Maker: Entry level apprentice. Candidates must have excellent manual dexterity and the ability to lift 30 lbs or greater on a frequent basis. Metal working experience preferred but willing to train the right person.

Pipe Maker: Skilled with 3 to 5 years of experience. Candidates must have competency in rounding, soldering, flattening, and cut up of new organ flue pipes as well as technical proficiency in pipe repair. Applicants must also be conversant in the casting process, metal compositions, and numerous variations of pipe anatomy and terminology.

Wood Worker: Mid-level skilled position. The successful candidate must have strong math skills, the ability to read a tape measure, have an understanding of blueprints, and good hand/eye coordination and motor skills. Experience with wood working equipment and the ability to lift greater than 100 lbs is necessary.

We are searching for candidates interested in developing to their fullest potential with our 100% employee owned company. We encourage you to apply if you possess a strong work ethic and the ability to learn and accept instruction. We offer a competitive wage and excellent benefits including healthcare and other ancillary benefits, paid time off, holiday pay, and 401(K) and Employee Stock Ownership retirement plans.
